(MATTHEW CLARK, Esq., retiring.)

ISAAC NICHOLSON, Esq. *Proposed by* MATTHEW CLARK, Esq.

Thomas Cope, Esq. and Major Naylor, were appointed by the Chairman Scrutineers to ascertain and report the result of the Ballot.

The Chairman informed the Meeting that the Ballot would be closed at 4 o'Clock, if the other business were then concluded.

The Ballot Commenced.

T. L. Robinson, Esq. objected to Mr. Cope and Major Naylor as Scrutineers, that they had been proposed by Mr. Tooke.

John Dillon, Esq. and J. T. Leader, Esq., M.P., were appointed Scrutineers in addition.

The Report of the Council and the Statement of Receipt and Expenditure for the Session 1839–40, were read by the Secretary.

The Balance Sheet and other Financial Documents, certified by the Auditors, were laid on the table.

On the motion of Matthew Clark, Esq.,—Resolved, That the Report be received, printed, and circulated among the Proprietors.

T. L. Robinson, Esq., moved "That the proceedings of this Meeting have been carried on in a most arbitrary and unsatisfactory manner."

B. H. Smart, Esq., moved as an amendment, That the words after "that" be struck out, and that the words "the proceedings of this Meeting have been carried on in a satisfactory manner as far as regards the conduct of the Chairman," be substituted.

Question, That the motion of Mr. Robinson be amended, put, and passed in the affirmative. Ayes 51, Noes 7.

Question, That the words proposed by Mr. Smart be substituted for those of the original motion, put, and passed in the affirmative. Ayes 59, Noes 9.

The Scrutineers made their return to the Chairman of the result of the Ballot, stating specially as to the Ballot for the election of Treasurer, that they found voting papers for Mr. Tooke 91, for Mr. Taylor 89; one voting paper, without any erasure, folded up with a vote; one voting paper from which the words "Henry Warburton, Esq." as proposing William Tooke, Esq. were struck out, and that the last two papers were not included in the above return of numbers.

# REPORT.

THE Council having announced in their last Report the completion of the several academical arrangements consequent on the granting of the Charter, both in the University of London, and the College, have now only to communicate to the Proprietors the ordinary details of the Institution, with reference to its primary object, Tuition; and the finanical operations requisite for its support.

## FINANCE.

The number of Pupils in the College Classes, and in the School during the preceding Session, exclusive of the Class of Schoolmasters, was 961, namely,

| | |
|---|---|
| In the Faculty of Arts and Laws . . . | 147 |
| In the Faculty of Medicine . . . . . | 423 |
| In the Junior School . . . . . | 391 |

The fees amounted to 12,070*l.*, from which 8630*l.* 2*s.* 6*d.*, the portions due to Professors and Masters being deducted, there remained 3439*l.* 17*s.* 6*d.* Adding certain incidental receipts, amounting to 44*l.* 19*s.*, the ordinary income of the College for the year was 3484*l.* 16*s.* 6*d.* The ordinary expenses of the Session were 3253*l.* 9*s.* 5*d.*, leaving a surplus in favour of the College of 231*l.* 7*s.* 1*d.* on the account of ordinary receipts and payments. An addition of 182*l.* 4*s.* 4*d.* to such surplus was derived from a donation of 50*l.*, and from the temporary Investments of a portion of the receipts in Exchequer Bills, and a few other casual payments. On the other hand are to be deducted from the balance in favour of the College divers extra charges, including Mortgage Interest, and some occasional Sessional payments amounting to 363*l.* 6*s.* 11*d.*, reducing the actual surplus to 50*l.* 4*s.* 6*d.*

A further outlay, however, has been incurred of about 450*l.** in improvements and additions to the Buildings and Scientific Apparatus, which are of a permanent character, and are not therefore to be

* Vide Table B. 2., p. 12.

classed with the annual expenses of the Establishment. This extraordinary expense has been defrayed by the temporary application of the sum of 500*l.*, presented by Mr. Brundrett in December 1837, and which at the close of the Session 1838–39, remained to the credit of the College at the Bankers.

The receipts of the Current Session up to the present period, compared with those of former years, renders perceptible the effect of the diminution in the new entries in the Medical School in the preceding year. The number, however, of new Students in the Medical Classes and in the Hospital this year has increased in the proportion of one-tenth.

The entries to the Classes in the General School are nearly the same as at the corresponding period of the year 1839–40, the difference being five less. The number of boys in the Junior School continues increasing.

The Class of Schoolmasters has somewhat increased; 43 have already entered for this Session.

In the month of May the Council received from the Executors of Mr. Longridge, payment of the Legacy left by him to the College, of 1000*l.* free of duty, which was immediately invested in the purchase of 998*l.* 15*s.* $3\frac{1}{2}$ per cents reduced.

In October next the period will arrive when the full number of Flaherty Scholarships will be awarded. The Council have therefore carried into execution their vote of June 1837, and have made an addition, at the cost of 217*l.* 18*s.* 3*d.*, to the Flaherty Fund, by the purchase of 220*l.* 10*s.* 2*d.* $3\frac{1}{2}$ per cents. reduced, in order to raise the Annual Dividends applicable to the Scholarships to the sum of 200*l.*

The Council refer the Proprietors with satisfaction to the tabular view of the present state of the Endowment Funds of the College.

---

In the course of the last Session the Council appointed E. Shepperd Creasy, M.A., Fellow of King's College, Cambridge, Professor of Ancient and Modern History. A new Class of Drawing in all its branches has been instituted, of which Mr. G. B. Moore has been appointed teacher. Dr. Carswell, whose state of health obliged him to omit his Course of Lectures on Pathological Anatomy last Summer, having received while abroad the appointment of Physician to the King of the Belgians, resigned his Professorship and his office of Physician to the Hospital at the commencement of the present Session. The usual measures for filling up the vacancy are now in progress.

## DEGREES AND HONOURS.

The Council have great pleasure in adverting to the increasing efficacy of the University of London, with which the prosperity of the College is so closely connected. They have an especial gratification in reporting that the proportion of the rewards and distinctions conferred by the University upon the Students of this College, is such as to furnish a proof of the efficiency of the instruction it communicates.

One of two book prizes, 10 of 12 Gold Medals, and 1040*l.* out of the 1280*l.* granted in the form of Exhibitions and Scholarships, have been obtained by Students of this College. Those who most distinguished themselves at the Examinations, which took place in the year 1840, were Mr. William Davison, Exhibitioner in Mathematics at the Matriculation Examination; Mr. Joseph G. Greenwood, on whom, on taking the Degree of B.A. with Honours, was conferred the University Classical Scholarship of 50*l.* a year for three years; Mr. Frederic John Wood, who, on taking the Degree of B.L. obtained the Law Scholarship of 50*l.* a year for three years; Mr. Edmund Parkes, to whom, besides three Gold Medals, two Exhibitions of 30*l.* a year each for two years at the first Examination for the Degree of Bachelor of Medicine were awarded; and Mr. Richard Quain, who, on passing the Second Examination and taking his Degree of B.M., obtained the Medical Scholarship of 50*l.* a year for two years.

The Flaherty Scholarship of this College for the Session 1840 to the best proficient in Mathematics, was awarded in October last to Mr. Charles James Hargreave.

## HOSPITAL.

The number of new Students who entered at the Hospital during the Session 1839–40 was 118, the Fees received for attending the Medical and Surgical Practice amounted to 2729*l.* 10*s.* The appeal which in the course of last Spring the Council thought it advisable to make to the Public for increased support by means of a Festival in aid of the Funds of the Hospital, was attended with a result which satisfied the most sanguine expectations, and realized an available net produce of 2320*l.* Nevertheless, considering that this Hospital, by which a vast benefit is conferred on the destitute and sick of a most populous district, derives its means of existence mainly from the Fees paid by Pupils, which in other similar Institutions are shared by the Medical Officers, the Council still feel that it is entitled to a far more zealous cooperation than it has hitherto re-

ceived from the affluent residents in its more immediate neighbourhood. They therefore take this opportunity to exhort the Proprietors and Members of the College to exert themselves in procuring for the Hospital an augmentation to its list of Life and Annual Subscribers.

BYE-LAWS.

In conformity with the powers of the Charter, and with a view to more uniform and constant administration of the concerns of the Establishment, the Council have been recently occupied in preparing an entire body of Bye-Laws and Regulations, which will be submitted for the consideration of the Proprietors at a Meeting to be especially convened for the purpose.

By the Council,

CHARLES. C. ATKINSON, *Secretary.*

Feb. 24th, 1841.
